

Accessibility Statement for iava wellness

This is an accessibility statement from iava wellness.

Measures to support accessibility

iava wellness takes the following measures to ensure accessibility of iava wellness:

- Include accessibility as part of our mission statement.
- Include accessibility throughout our internal policies.
- Provide continual accessibility training for our staff.

Conformance status

The Web Content Accessibility Guidelines (WCAG) defines requirements for designers and developers to improve accessibility for people with disabilities. It defines three levels of conformance: Level A, Level AA, and Level AAA. iava wellness is partially conformant with WCAG 2.1 level AA. Partially conformant means that some parts of the content do not fully conform to the accessibility standard.

Additional accessibility considerations

Although our goal is WCAG 2.1 Level AA conformance, we have also applied some Level AAA Success Criteria: Images of text are only used for decorative purposes. Alternative text has been applied to all images, heading labels and sublabels have been added to create distinctions of our sections, and all sections have been fitted to accommodate zoom up to 200%. Any videos we aim to have fully captioned to further aid in accessibility.
